ACADEMIC EXPERIENCE

FINAL PROYECT

Henry - July 2021

- Team development of an app to reserve and publish accommodations for rent.
- I worked in a full-stack way, but I was focused on the front end development.
- Technologies we use: React-Redux, NodeJs, Express, MongoDB, Material UI, Typescript, Firebase

POKEMON APP

Henry - June 2021

Development of a SPA (Single Page Application) using React and Redux for the Front End. All the components were developed with pure CSS without the use of external libraries. The SPA consumes data from an API (<https://pokeapi.co>) through a Back End developed in NodeJS and using Express as the database. Some features of the project: SearchBar, sorting and filters, controlled form to create a new Pokemon.

EDUCATION

FULL STACK DEVELOPER
